Since 1968
When Grapes Turn to Wine

When grapes turn to wine, they long for our ability to change.

When stars wheel around the North Pole they are longing for our growing consciousness.

Wine got drunk with us, not the other way. The body developed out of us, not we from it.

We are bees, and our body is a honeycomb. We made the body, cell by cell we made it.

- Rumi by Bly

VINEYARD REPORT

Cold and long describe the winter briefly. The temperature never dropped below 0°F so no significant vine or bud damage shows.

Winegrowing really stresses the importance of growing sweet and tasty grapes for winemaking. And Pruning should control the crop to what each vine can ripen with relative ease. That means that yields need to come in below 3 tons per acre for the highest quality. Last year and the '99 crop picked out on the high side because buds were more fruitful. So far the vines look ready.

BLESSING OF THE VINES

May 19 - Noon • Blessing of the vines at the Vineyard

May 19 moves the Blessing ahead about two weeks. Hope this schedule works for you. Hil-Mak will fry fresh Lake fish from 1 to 3 p.m., serving lunch for those who stay after the Blessing. Lunch Reservations are needed by May 16. Cost of $21 per person includes a bottle of '95 Homage Chardonnay per couple.

WQLN - Auction April 27
8 to 9 p.m.

Make this your favorite wine auction. Watch Ken Beamant lead the auction team as he highlights important features about each wine and vintage. Wine friends of WQLN will find specialties, lay-aways, and bargains. The Lake Erie wineries coordinated a special wine hour to support this local PBS TV station, Channel 54. Your help can make it happen by watching and bidding.

If you win the bidding, you will pay WQLN and receive a certificate to claim your wine at the winery. Very easy and lots of fun. Catch this hour if you can! A worthwhile cause.

LAKE ERIE ENOLOGY RESEARCH CENTER

This new Center formally started this year, but actually grew out of wine studies over the last two years by a number of faculty members from Youngstown State and Cleveland State Universities.

Sparked by Professors John Usis at YSU and Don Lindmark at CSU with PACE grants, projects were started at Harpersfield and Markko Vineyard with native yeast populations and their DNA.

Professors Harry Van Kuelen from CSU and Carl Johnston from YSU and their students sampled musts extensively during harvest. Dr. Roland Riesen, Enologist formerly with OSU guides the Center’s work with the Departments of Biology and Chemistry.

Their collaboration will help define the unique characteristics of the Lake Erie Appellation and its wines.

September 15 - Odds & Ends Sale at Markko.

---

**THANK YOU**
To the City of Conneaut for their composting program of city leaves and yard waste, and to OSU Professor Harry Hoitink for researching the benefits to growers.

Also, to all the hearty souls who braved the cold and snowy roads to visit the vineyard this winter. Thanks for your interest and support. The skiing was great for a number of weeks.

**GRANDCHILDREN**
Blessing so far this year! David Andrew Gary arrived to Rebecca and Paul on February 20th. He weighed 8 pounds 10 ounces. Others on the way.

**PUPPIES**
More puppies on the way - Available mid July. There could be three litters from which to choose.
