Teacher of the Year—Allan Spencer, D.P.M.

Our years at O.C.P.M. have been years that will determine, to a great extent, the level of professional success we will experience as practitioners of podiatric medicine. Playing a significant role in preparing the Class of 1975 to acquire the knowledge and assume the freedom and responsibilities that accompany being a member of a health profession team is Allan Spencer, D.P.M.

Dr. Spencer has been at O.C.P.M. since entering as a student following graduation from Grove City College in Pennsylvania in September, 1954. During that time he has experienced the arrival and departure of many classes of students. In viewing the senior class, he sees the improved quality of student and person who has chosen to enter the profession. He claims to have found a true sense of enjoyment in teaching us and we can only reciprocate by reaffirming what we have perhaps known since the beginning of our days at O.C.P.M. . . . that Dr. Spencer was generous with his time and patience and his educational experience . . . and that he will feel a special aura of success when we, the Class of 1975, achieve our own level of the ultimate achievement . . . what ever it may be.

Organizations
Ohio Podiatry Students' Association

The Ohio Podiatry Students' Association, an affiliate of the American Podiatry Student's Association, is the official governing body for the students of O.C.P.M. It is the object of O.P.S.A. to unite for the mutual benefit of the student body and the Ohio College of Podiatric Medicine, to strengthen ourselves academically and clinically, to foster student relations with the faculty and administration as well as Doctors of Podiatric Medicine and other members of health profession teams, to stimulate fellowship between ourselves, to conduct business efficiently and to educate and serve the community at large.

The O.P.S.A. is governed by the Executive Committee. This committee is comprised of the President, the President-Elect, the Director of Business Affairs, The Director of Communications, the Director of Clinics, the Director of Extra-Curricular Affairs, the Director of Local Affairs and the Delegate to the American Podiatry Student's Association.

The principal responsibilities of the Board include interpretation of the Constitution of the Association as it pertains to the activities of the student body, and to serve as the final authority in all matters concerning the students.

Doug Kennedy
President-Elect

Bottom Row, L-R: Jerauld Ferrito, Andy Liss, Terrence Albright, Douglas Kennedy, Paul Shoenfeld.
Phi Alpha Pi, the oldest of all professional fraternities, was founded in 1919 under the direction of Dr. William Stickel. Our chapter, Epsilon, was founded four years later. Since its inception, the goal of Phi has been to enhance each members' knowledge of podiatric medicine while working together in a common brotherhood.

Phi independently operates two complete clinical facilities from the allocations of the fraternity's budget. At the Salvation Army Harbor Light Podiatric Clinic, the fraternity maintains a facility that includes surgical suites, and an examination and diagnosis room, an x-ray room, a laboratory, and a physician's consultation room. In addition, an orthopedics lab was constructed this past year. At the Convent of Franciscan Nuns, Phi has continued to render excellent podiatric care to the nuns.

A very special thanks to Rocco J. Palermo, D.P.M., whose leadership and guidance smoothed out any problems that Phi encountered.

To my fellow seniors, I wish luck and success in the future. To the underclassmen, I hope you are able to continue on with the spirit of brotherhood that has been greatly strengthened this year.

Since its inception on March 8, 1932, the organization then known as the Chiropody Club, has been dedicated to the idea of fostering scientific knowledge, friendship between the members of the fraternity and the promotion of the intellectual interest of the brotherhood.

Nine ambitious men met at the Green Gables, with the idea setting up a local, nonsectarian, independent organization. It was their desire to be represented by “the best at the Ohio College of Chiropody”, that began the tradition which still stands among the Kappas of today. With the help of the late Dr. Harmolin, later that year the fraternity was formally founded. Since then, there have been lean and fat years in membership, but always the same quality in its members and selectiveness in its program. This past year has seen the fraternity more active and purposeful than ever before.

Our educational program is in the form of guest lectures, demonstrations and on the spot instruction in patient care and technique.

A well-balanced social program was launched beginning with the 1953 Senior Farewell Ball and Spring Social, which has been a constant highlight of the fraternity’s academic year ever since.

The fraternity is once again proud to be represented by the men of the graduating Class of 1975, and to them goes the best wishes of those who will follow, for a long and successful career in their chosen profession.

Wherever and whenever a group of men band together, the cohesiveness of that group is often perpetuated by the maintenance of a common objective. Alpha Gamma Kappa stands closely united by a desire to excell within the field of podiatric medicine.

This year AGK provided more competent and comprehensive podiatric medical care to the Cleveland Christian City Mission and the Eastern Star nursing home clinics. Under the supervision of upper classmen, OCPM first year residents, or fraternity clinical advisors, members who provided this podiatric care increased their excellence in skill and knowledge in all facets of podiatric medicine.

AGK was active in co-sponsoring the IFC Lecture Series this year, as well as conducting its own series of lectures and practical demonstrations. Practicing podiatrists and other medical practitioners lectured to the fraternity on a variety of topics such as hospital protocol, practice administration and ophthalmoscopy. The fortes of individual brothers were exploited by the conduction of practical demonstrations in such areas as lower leg casting, venipuncture and O.R. protocol.

One of the marks of excellence in a capable medical practitioner is an ability to successfully relate and communicate with both patients and other medical practitioners. AGK affords its members a chance to cultivate this ability through several social activities throughout the year. This year's list included a fall "chicken and clam bake", a Hay Ride and Barn Party, skating parties, and the annual spring dinner dance.

The realization that AGK's excellence is merely a reflection of individual excellence from its membership creates the confident hope that success and happiness will be forthcoming in our professional lives.

Best Wishes,
John T. Carroll, President

Eastern Star Nursing home is a non-profit organization run by the local Masonic Chapter of Cuyahoga County. A total of seventy patients reside within the facility, with one floor staffed to provide twenty-four nursing care. AGK provides the podiatric care which is so important to complete total health care for the geriatric patient. The podiatric care offered to the elderly at Eastern Star encompasses a broad spectrum. The treatment of various types of skin ulcerations, localized skin infections, biomechanical abnormalities, and permanent correction of onychocryptosis via surgical resolution comprise a large percentage of the treatment rendered. Members soon learn that total foot care of the geriatric patient is not restricted to palliative techniques.

The brothers of AGK are thankful for the opportunity to learn while providing such a valuable health service within this institution. We also enjoy bringing a bit of happiness to the feet and hearts of the patients of Eastern Star.

The Christian City Mission is a non-profit organization located in downtown Cleveland, which serves the transient and homeless of Cleveland. With the advent of AGK’s foot clinic at the City Mission, podiatric as well as general medical care has been provided for these people. There are three treatment rooms for podiatry, one medical treatment room, a well-stocked pharmacy and a recently constructed x-ray room.

Under supervision of resident and clinicians of O.C.P.M., students render care that runs the gamut of podiatric medicine. Treatment of alcoholic neuropathies, chronic ulcers, venereal diseases, frostbite, peripheral vascular disorders are frequently performed, as are the more routine podiatric problems. The availability of a Medical Doctor provides the patient good all-around care, and gives the students a readily available source of consultation – as well as medical education.

Podiatric surgery is being performed with increasing frequency. Patients are then housed within the mission post-operatively.

In general, good medical care for patients and a rewarding educational experience for students is obtained at AGK’s City Mission Foot Clinic.

Footprints is the bi-weekly student publication of the Ohio College of Podiatric Medicine. In a newsletter format, factual and frugal information is disseminated to faculty, administration, and students. The newsletter also is sent to about 150 organizations throughout the country, such as the APA, SAMA, the other podiatry schools and all state agencies.

In an effort to narrow the "communication gap", Footprints serves as a medium for opinion and comment. It does not attempt to reproduce information readily available such as that found on bulletin boards or made in daily announcements. Footprints does serve to quash rumor. Footprints works closely with the O.P.S.A., a national affairs and clinic news editor keep students abreast in these respective areas. The managing editor oversees all school affairs. The editor overlooks the entire newsletter operation, contributes editorials, designs the scheme and style of the newsletter. Faculty advisor to the paper is Mr. Ed Dell.

The Pi Delta Podiatric Honor Society is a National Organization chartered for the purpose of acknowledging scholastic, scientific, and medical achievement. The Beta chapter of the Ohio College of Podiatric Medicine is composed of twenty members of the Senior Class chosen for their exceptional ability.

The society endeavors to enrich the students' background through the media of academic seminars and undergraduate research projects.

It is the hope and continuing goal of the society to see the profession and practice of podiatric medicine attain full fruition.

Charles P. Cangialosi
President
The Presidents' Club was established to serve as a viable link between the administration of the Ohio College of Podiatric Medicine and the different student organizations at the school. The purpose of the organization is to discuss the various problems and dilemmas which occur within the student government, class governed fraternities with Drs. Rubin and LeCompte. The outcome of our dialogue is structured to advance the ideals and purposes of podiatric education for the benefit of the individual student and for the benefit of the institution. Membership to the organization consists of Drs. Rubin and LeCompte, the Presidents of the four classes, the presidents of the three fraternities, IFC President, President and President-elect of OPSA and the editors of Occopodian and Footprints.

Submitted by:

T.B. Albright
President
OPSA
With a great deal of patience, determination, some imagination, and weeks of hard work, the 1975 edition of the Occopodian has been completed.

This year's book has attained the degree of professional excellence that is expected of all medical school publications. We have tried to capture the true spirit and school life that O.C.P.M. offers. Our objective was not to pay tribute to just the seniors, but to cover the year's history of the entire student body, faculty and staff.

The 1975 Occopodian offers some drastic changes over the previous year's books. For the first time, we contracted a professional photographer to take the candid pictures. Color has been included in various areas throughout the book.

We hope that our efforts have brought you a yearbook that will be appreciated not only now, but also in the years to come.

The Inter-Fraternity Council of Ohio College of Pediatric Medicine is the recognized representative voice of the fraternities. To act as the legislative and Judicial body in matters pertaining to fraternity rush and act as a forum for the exchange of ideas and the initiation of actions between individual fraternities, the College and OPSA. It is administered by a president and an eight member Board of Representative directors, and ten associate directors who were chiefly responsible for the highly successful first Inter-Fraternity Council Guest Lecture Series.

The Inter-Fraternity Council composed of AGK, KTE, Phi Alpha Pi and Pi Delta has now become a strong and true expression of not only the "Greek" student, but this year under a new resolution O.P.S.A. was voted upon, and received a seat on the council, so that all students have some realistic representation.

The Inter-Fraternity Council must and will remain a viable channel through which unity, progress and fraternalism may develop to meet the escalating needs of the individual student and to keep pace with the progressive achievements of the Ohio College of Pediatric Medicine.

Brian Bakst, President
Currently, there are twenty-five Canadians studying Podiatric Medicine in the United States of America. Eleven of these Canadian students are attending the Ohio College of Podiatric Medicine. We, as Canadians were totally unaware of each other until Joe-Wong-Sing, the incipient founder of the Canadian Association of Podiatry Students (CAPS), unified us through the initiation of CAPS, in February 1974. CAPS is governed by a nationally elected Executive Committee. Also, each branch or college of podiatric medicine is governed by a locally elected committee. The above photograph shows the members of the CAPS-OCPM Branch.

The CAPS-OCPM Branch is dedicated mainly to providing information, counselling and assistance to its local members; to the other members of CAPS; to Canadian admission applicants to OCPM; to an perspective Canadian students planning to study Podiatric Medicine at OCPM or any of the other colleges, and to our fellow American students who upon graduation express a desire to practice Podiatric Medicine in Canada.

As an incipient organization we still have many problems to overcome, but I'm certain that February 1974 will be recorded in the annals of the Podiatric Profession in Canada as a date to be remembered. Dear Canada, podiatry is on the move!

TO THE CLASS OF '75:

We welcome you as Alumni of the Ohio College of Podiatric Medicine and extend our very best wishes for a happy and successful career in Podiatry.

When you think of an Alumni Association, you recall the College it represents. The pride you feel with being a graduate of your College, at which you fulfilled your ambitions for a professional future in Podiatry, should instill a life-long devotion to your Alma Mater.

We know you worked long and hard to obtain your D.P.M. degree and we also know that it is your desire to see your College progress and grow larger in all areas.

Your help will always be needed, whether it be financial or moral, to further the teaching and practice of Podiatry.

As you know, your Alumni Association has pledged $100,000.00 toward the purchase of the Carnegie Medical Building. This pledge was made possible only through contributions from your fellow Alumni, who feel that O.C.P.M. is the BEST Podiatry college in the United States.

Please assist us by being an active and dedicated Alumni Association member. Support your College — Support your Alumni Association and Support your profession. As they grow in strength and knowledge, they will support and gratify you.

Joseph Seder, President

WHY are Saperston Semi-Flexibles the most prescribed type of foot appliances?

BECAUSE they give immediate relief for so many different types of foot problems!

More proof:
- Relieve heel spurs, bursitis, painful naviculars, epiphysitis
- Worn in almost every type shoe, even semi-dress footwear.
- Reinforced with sponge, cork, springs, celastic or fiberglass to provide support as required.
- Top quality calf and suede hand-crafted into quality foot appliances.
- Plastic calf tops supplied for hyperhidrosis upon request.
- May be posted for gait control and still be worn with complete comfort.
- Altered or rejuvenated easily.
- Literature upon request.

Indebtedness is acknowledged to far more persons than can be mentioned by name. How can one even begin to thank all those whose friendship and assistance have made this yearbook possible.

I would like to thank the professional people who made the 1975 Occopodian a reality; Mr. John Urian of Keller Publishing for his instrumental part in the creation and production of this yearbook; Mr. Jim Janis of Hallmark Photographers for the usual excellent service in senior and underclassmen portraits; and Mr. Joe Crilly for his excellence in candid photography.

To Mr. Brian Cantlin, our advisor, my deepest thanks for all the guidance and assistance in leading us through another year.

To Mrs. Betty Paquin, who always aided the staff whenever asked.

To Pat Gyrbko and Kai Sullivan, who tolerated my constant interruptions when I needed advice or assistance.

To my wife Marcia, who endured the late night phone calls, and helped me more than anyone in assisting me in the completion of this book.

To all my fellow classmates, luck and happiness in the future.

Marc S. Keys
Editor-in-Chief
